

## **SECTION 6**

### **6.43 PROTECTIVE CONCRETE PADS OVER PIPE:**

Under unusual circumstances it may be necessary to lay pipe at shallow depths. Concrete pads shall be used over the pipe to protect it from traffic and frost. The pads shall be designed to support loads from traffic without transmitting the impact, or load, to the pipe. This situation, and its solution, shall be subject to approval by Denver Water.

Approved insulation required between pipe & conduit.
